SECTION III - RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a better understanding, you should read this section together with "Our Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 113 and 271, respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our cash flows, business, financial condition and results of operations could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risks where the impact is not quantifiable and hence the same has not been disclosed in such risk factors. Investment in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. Before making an investment decision, investors must rely on their own examination of the Issue and us.

This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

In this Draft Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in "Risk Factors" on page 29 and "Management Discussion and Analysis of Financial Condition and Results of Operations" on page 271 respectively of this Draft Red Herring Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the "Financial Information" prepared in accordance with the Indian Accounting Standards.

Materiality

The Risk factors have been determined and disclosed on the basis of their materiality. The following factors have been considered for determining the materiality:

1. Some events may have material impact quantitatively;
2. Some events may have material impact qualitatively instead of quantitatively;
3. Some events may not be material individually but may be found material collectively;
4. Some events may not be material at present but may be having material impact in future.

INTERNAL RISK FACTORS

1. ***Our entire revenue stream is derived from activities from the states of Maharashtra, Uttar Pradesh and Madhya Pradesh. Any adverse development affecting our operations in these regions could have an adverse impact on our business, financial condition and results of operations.***

Such geographical concentration of our business in these states heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations. We may not be able to leverage our experience in these regions to expand our operations in other parts of India.

Our sales geographical wise in the states of Maharashtra, Uttar Pradesh and Madhya Pradesh for the half year ended September 30, 2024 and for the Financial Years ended on March 31, 2024, 2023 and 2022 is mentioned under the heading titled "Our

Geographical Wise Revenue/Sales" on page no. 129 in the Business Overview Chapter on page no. 113 of this Draft Red Herring Prospectus.

The concentration of our business in Maharashtra, Uttar Pradesh and Madhya Pradesh subjects us to various risks, including but not limited to:

- regional slowdown in construction activities in the states of Maharashtra, Uttar Pradesh and Madhya Pradesh;
- vulnerability to change of policies, laws and regulations or the political and economic environment of the states of Maharashtra, Uttar Pradesh and Madhya Pradesh;
- constraint on our ability to diversify across other states.

Our experience in Maharashtra, Uttar Pradesh and Madhya Pradesh may not necessarily be transferable to these new states. Additionally, as we venture into unfamiliar markets and regions, we are likely to encounter competition not only from national entities but also from local players with established presence, extensive knowledge of local regulations, business norms, and customs, as well as stronger relationships with local contractors, suppliers, relevant government authorities. These competitors may also possess existing market foothold or enjoy a more robust financial standing, granting them a competitive edge. The inability to successfully expand beyond the markets of Maharashtra, Uttar Pradesh and Madhya Pradesh, could have adverse effects on our business prospects, financial health, and operational outcomes.

2. *Our business significantly depends on projects awarded by government or government-owned customers, which subjects us to a variety of risks.*

Our business significantly depends on projects awarded by government and government-owned customers, including central or state governments, governmental organizations and public sector undertakings.

We cannot assure you that government policies (especially those of the Government of India) will continue to place emphasis on infrastructure. In the event of any adverse change in budgetary allocations for infrastructure development or a downturn in available work in the infrastructure sector resulting from any change in government policies or priorities, including on account of changes in government pursuant to elections, our business, prospects, financial condition and results of operations may be adversely affected. Contracts with government and government-owned customers may be subject to extensive internal processes, policy changes, government or external budgetary allocation, insufficiency of funds and political pressure, which may lead to a lower number of contracts available for bidding, an increase in the time gap between invitation for bids and award of the contract, a renegotiation of the terms of these contracts after they are awarded, or delays in payments against our invoices. Further, in relation to such contracts, we may be subject to additional regulatory scrutiny associated with commercial transactions with governments and government owned or controlled entities and agencies. Contracts with governments and government owned customers are typically based on the contract form finalized by the government or government-owned customer. As a result, our ability to negotiate the terms of these contracts is limited, and such terms tend to favour the government and government-owned customers. Such contractual terms may present risks to our business.

If a government or government-owned customer terminates its agreement with us, we are typically entitled to compensation, unless the agreement is terminated pursuant to a material breach of contract by us.

Further, government and government-owned customers typically have the right to change the scope of work to include additional work which was not contemplated at the time of execution of the contract. Although we may be entitled to additional fees for such increased scope of work (subject to a fixed cap), we may be required to mobilize additional resources, which may not be readily available on reasonable terms or within the stipulated project timelines.

3. *If we fail to qualify for, or win new contracts from project owners, our business, financial condition, results of operations, prospects and cash flows could be adversely affected.*

We enter into contracts primarily through a competitive bidding process, and our business depends on our ability to bid for and be awarded contracts for projects by project owners. Typically, project owners advertise potential projects in newspapers or on their websites by publishing pre-qualification notices. If a project is of interest to us, we evaluate our credentials considering the eligibility criteria specified for the project. We endeavour to qualify on our own for projects that are of interest. In the event that we do not qualify due to eligibility requirements, we may seek to form project-specific joint ventures with other relevant experienced and qualified contractors. Once we pre-qualify for a bid, tender documents are sent to pre-qualified bidders (including our Company) by the project owner. We then submit a financial bid, along with any technical bid details required, to the project owner.

We cannot assure you that we will be able to meet the pre-qualification criteria prescribed by project owners. Further, in the event that we do not meet the eligibility criteria by ourselves, we cannot assure you that we will be able to find a suitable joint venture counterparty on acceptable terms or at all. Finally, even if we pre-qualify for a project, we cannot assure you that our bid, when submitted, will be successful.

Further, certain project owners from the private sector may only invite a select group of contractors to participate in the bidding process. In such instances, we cannot assure you that we will be invited to bid for such projects or that our bid in a non-competitive bidding process will be successful.

We spend considerable time and resources in the preparation and submission of bids, and if we are unsuccessful, we will not be able to recover the costs incurred by us. In addition, tender processes are regularly subject to changes in eligibility criteria, unexpected delays and other uncertainties, depending upon the nature of the project and its location or that of the project owner.

This type of occurrence is common in the industry in which we operate and has affected us in the past. However, as we complete more projects, this risk is expected to diminish. Additionally, the financial impact of such instances is limited, as we carefully bid on projects based on our pre-qualification criteria.

4. *We cannot assure you that the construction of our projects will be free from any and all defects.*

We cannot guarantee that we will always complete the construction or development of our projects according to the required specifications or that our projects will be entirely free of defects. If the work is found to be unsatisfactory, it may need to be redone according to the designs or instructions of the project in charge, leading to additional costs. If defects or faults are discovered in our work, or if damages occur due to factors beyond our control, or for other reasons, we may face significant contractual liabilities and losses under our project contracts, which could negatively impact our financial performance and operating results.

This could result in negative publicity and litigations all of which could adversely affect our business, financial condition, and operating results. However, as of the date of this Draft Red Herring Prospectus (DRHP), no defects have been identified in our completed projects.

For further details of our business, please refer to chapter titled “Our Business” beginning on page 113 of this Draft Red Herring Prospectus.

5. *If any of our projects are terminated prematurely, we may not receive payments due to us, which could adversely affect our business, financial condition and results of operation.*

Our agreements with project owners can be terminated prematurely by project owners for several reasons, including:

- a) failure to provide, extend or replenish performance security required under agreements;
- b) failure to cure a default within the stipulated cure period;
- c) failure to achieve project milestones to complete a project within the prescribed timelines;
- d) any assignment of rights, obligations, or assets by our Company or the relevant subsidiary or joint venture;
- e) occurrence of a force majeure event, such as an act of God, act of war, expropriation or compulsory acquisition of any project assets by the government, industrial strikes and public agitation;
- f) bankruptcy, insolvency, initiation of liquidation, dissolution, winding up or amalgamation of our Company or the relevant subsidiary or joint venture;
- g) failure to comply with any other material term of the relevant agreement;
- h) failure to perform work in accordance with the terms of the agreement or stoppage of work, resulting in a breach of our agreements.
- i) reduction in scope of work of the tender

If any of the foregoing occur, project owners may terminate our agreements with them, which will adversely affect our business, financial condition, cash flows and results of operations. If our agreements are terminated for reasons attributable to the project owner, we are typically entitled to receive a termination payment in accordance with the terms of the agreement. However, we cannot assure you that project owners will actually make such payments or that such payments will be adequate to recover our costs. As on the date of this DRHP none of our past projects have been terminated prematurely.

6. *We are required to furnish bank guarantees as part of our business. Our inability to arrange for such guarantees or the invocation of such guarantees may adversely affect our cash flows and financial condition.*

As part of our business, we are required to provide financial and performance bank guarantees in favour of our customers and the collateral to secure financial bank guarantee is typically ranging from 10% to 30 %. These guarantees are typically required to be furnished within a few days of the signing of a contract and remain valid for period of certain days after the defect liability period prescribed in the contract.

If we are unable to provide sufficient collateral to secure financial bank guarantees, or performance bank guarantees, our ability to enter into new contracts or obtain adequate supplies could be limited and could adversely affect our business, results of operations and financial condition. However, we confirm that there are no past instances in which we are unable to provide

sufficient collateral to secure financial bank guarantees etc.

7. *Our actual cost incurred in completing a project may vary from the assumptions underlying our bid. We may be unable to recover all or some of the additional expenses incurred, which could affect our financial condition, results of operation and cash flows.*

Under our contracts with our customers, we are typically entitled to receive an agreed amount, subject to variations in our scope of work. This amount is based on certain estimates underlying our bid including cost of construction materials, fuel, labour, or other inputs, and construction conditions.

However, our actual expenses in executing a project may vary based on a change in any such assumptions. The cost of construction materials, fuel, labour and equipment maintenance constitutes a significant part of our operating expenses. We are vulnerable to the risk of rising and fluctuating fuel, labour, steel and cement prices, which are determined by demand and supply conditions in the global and Indian markets as well as government policies. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such materials and adversely affect our business, financial performance, results of operations, and cash flows.

We cannot assure you that we will not experience any cost overruns in the future. Further, the assumptions underlying our bid are typically based on a pre-bid inspection / study that we conduct, comprising:

- a) undertaking a site visit along with engineers to study the project site;
- b) preparing a construction program and equipment list;
- c) preparation of an estimated bills of quantities, covering all the items required in the work (including subcontracting costs).

Our pre-bidding studies are usually conducted in a short span of time, as part of our preparation and research for a potential bid by us. Therefore, such studies are typically not exhaustive, because of which, in various instances, there could be deviations from our estimates. Further, we may also need to seek additional financing to meet any consequent cost overruns, which may not be available on attractive terms. Any significant deviations from the estimates could adversely affect our business, financial condition and results of operations.

8. *Our Company has entered into a joint venture agreement with another party for execution of a project. Any non- compliance with the terms of this joint venture agreement may result in adverse action against the Jointly Controlled Operation and the Company by the governmental authorities / concessioning authority.*

Our Company has executed a joint venture agreement with another party for the purpose of bidding and execution of a project, whereby certain unincorporated vehicles are formed, having an independent legal status in such jurisdiction from a tax perspective, for eg, association of persons, body of individuals, etc. It is regarded by us as being business joint venture, and, given the constitution of such vehicles, not incorporated companies. Such arrangements (also called “jointly controlled operation”) are considered as an extension of our business. A jointly controlled operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities, relating to the arrangements, and the parties agree contractually on the sharing of control of such an arrangement. As a result, no capital contribution has been made for execution of the projects and the obligations of the respective works are accounted for individually by the members of the joint venture.

The joint venture agreement of our Company provides for the terms and conditions of such Jointly Controlled Operation and the participation of the parties. Under the terms of the tender documents and the arrangements with the project owner, the parties are typically mutually responsible for the obligations of the other party to the project owner. We cannot assure you that such increase in our Company’s participation in the Jointly Controlled Operation will not be considered as breach of the tender documents and that no adverse action will be taken by the governmental authorities / concessioning authority against the Jointly Controlled Operation / Company.

9. *We face considerable risk related to the time required to complete each project, and there may be unexpected delays and cost overruns in our ongoing and future projects.*

As of the date of this Draft Red Herring Prospectus, we have not experienced significant unscheduled delays or cost overruns in our completed projects. However, given the dynamic nature of our business, there could be unforeseen delays and cost increases in our ongoing or future projects. Changes in national, state, and local business conditions, regulatory environments, construction market conditions, customer perceptions, and competition from other developments may impact our projects.

Additionally, any shifts in the availability of raw materials or increases in construction costs could affect project costs and revenues, potentially impacting project timelines. We cannot guarantee that our projects will stay within the expected budgets or schedules. Delays may result in penalties from regulatory authorities or clients.

For further details of our business, please refer to heading titled “*Our Business Operations*”, starting on page no. 122 of the chapter chapter titled “*Our Business*” beginning on Page 113 of this Draft Red Herring Prospectus.

10. *Our Company and our subsidiaries need specific approvals and licenses to conduct business and must adhere to certain rules and regulations. If we fail to obtain, maintain, or renew these approvals and licenses in a timely manner, or if we do not comply with these rules and regulations, our operations and financial performance could be negatively impacted.*

Our Company and its Subsidiaries require various statutory and regulatory permits, licenses, and approvals to operate. Many of these are granted for limited periods and need to be renewed periodically. Failure to renew these permits and licenses could negatively impact our operations, leading to a significant adverse effect on our business, operating results, and financial condition. There is no assurance that the relevant authorities will issue these permits or approvals within the anticipated timeframe, or at all. Some of our permits, licenses, and approvals come with specific conditions, and we cannot guarantee that we will consistently meet these conditions or demonstrate compliance to the statutory authorities, which could result in the cancellation, revocation, or suspension of the relevant permits, licenses, or approvals.

Any failure on our part to apply for, renew, maintain, or obtain the necessary permits, licenses, or approvals, or if any of these are canceled, suspended, or revoked, could disrupt our operations and have a significant adverse effect on our business and financials.

We have already received PAN, TAN, GST Registration Certificate under the Madhya Pradesh Goods and Services Tax Act, 2017, Shop & Establishment for the state of Maharashtra & Certificate of Incorporation in the name of Active Infrastructures Limited. Also, we have Applied for name change for which approval is pending from Statutory Authorities for GST Registration Certificate under the Maharashtra Goods and Services Tax Act, 2017, , Registration Certificate issued under the Employees Provident Funds and Miscellaneous Provisions Act, 1952, Registration Certificate under the Employee State Insurance Act, 1948, Certificate of Registration under the Maharashtra State Tax on Professions, Trades, Callings and Employments Act, 1975, Professional Tax Enrolment Certificate (P.T.E.C) , Certificate of Registration under the Maharashtra State Tax on Professions, Trades, Callings and Employments Act, 1975, Professional Tax Registration Certificate (PTRC) and Certificate of Registration under Madhya Pradesh Shops and Establishments Act, 1958.

For further details, please refer chapter titled “*Key Regulations and Policies*” beginning on page 136 and section titled “*material licenses/ approvals obtained by our company*” on page no. 293 under chapter “*Government and Other Approvals*” beginning on page 292 of this Draft Red Herring Prospectus.

11. *Some of our Subsidiaries & Promoter Group entities are engaged in the line of business similar to our Company. There are no non-compete agreements between our Company and such entities. We cannot assure that our Promoter / Directors will not favour the interests of such entities over our interest or that the said entities will not expand which may increase our competition, which may adversely affect business operations and financial condition of our Company.*

Some of our subsidiaries and certain entities within our Promoter Group are involved in activities similar to ours. We have not entered into any non-compete agreements with these entities. Therefore, we cannot guarantee that our Promoters, who have shared interests in these entities, will not prioritize their interests. This could lead to potential conflicts of interest when allocating business opportunities between our Company and the Promoter Group entities, especially if our interests are in competition.

In such situations, our Promoters may favor other entities. We cannot assure that our Promoters or members of the Promoter Group will refrain from competing with our current or future business, or that their interests will always align with ours. Any present or future conflicts of interest could negatively impact our reputation, business, financial performance, and profitability.

For further details, please refer chapter titled “*Our Promoters and Promoter Group*” beginning on Page No. 169 of this Draft Red Herring Prospectus.

12. *Substantial increases in the prices of, or shortages of, or disruptions in the supply of labor and essential raw materials could impact our projected construction costs and schedules, potentially leading to cost overruns or reduced profit margins.*

As a company involved in Infrastructure & Construction of Commercial Projects, we are significantly impacted by fluctuations in the availability, cost, and quality of raw materials and labor.

Our ability to develop and complete projects profitably hinges on securing a reliable and timely supply of materials within our budget. However, since we rely on external suppliers, our supply chain can be disrupted by factors such as poor infrastructure, adverse weather, and road accidents. Additionally, prices for essential materials like cement and steel can rise rapidly, and as we work in a labor-intensive industry, difficulties in negotiating with labor or subcontractors could lead to work stoppages or higher operating costs due to increased wages or benefits. Procuring sufficient labor for our projects may also be challenging.

During periods of material or labor shortages, we might struggle to meet project timelines and budget estimates, which could negatively affect our operations and reputation. Furthermore, if material or labor costs rise significantly, we may not be able to pass these increases onto customers, potentially reducing or eliminating our expected profits. These issues could adversely impact our business, financial performance, and cash flow.

13. Our business faces various operational risks at our construction sites, which can impact our operational performance and, in turn, the financial health of our company.

Our business operations are exposed to various risks, including equipment failures at project sites, adverse weather conditions, power interruptions, shortages of consumables, below-expected performance or efficiency, natural disasters, technological obsolescence, labor disputes, accidents, and the need to comply with evolving industry standards and government directives. These risks could lead to work stoppages and financial penalties. Such interruptions might delay project completion and affect our ability to deliver the completed project on time. Moreover, these risks could compel our contractors to compromise on quality to meet deadlines, potentially damaging our reputation and affecting our ability to attract new clients. Any of these issues could significantly impact our operational results and cause a slowdown or shutdown of business activities, which would have a serious adverse effect on our operations and financial condition.

For further details of our business, please refer to chapter titled “*Our Business*” beginning on page 113 of this Draft Red Herring Prospectus.

14. There are outstanding legal proceedings involving our Company and Directors/Promoters. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial conditions.

A summary of the outstanding proceedings, as disclosed in this Draft Red Herring Prospectus, to the extent quantifiable, have been set out below:

15. If we fail to effectively identify and secure business opportunities, we may not meet our financial goals.

Our ability to achieve our financial goals relies on our capacity to identify, evaluate, and capitalize on business opportunities. To expand our business, we need to recruit, train, supervise, and manage new employees, as well as implement systems and equipment that can support our growth. However, we cannot guarantee that these employees will contribute to our success or that we will use the systems and equipment effectively. Ineffective business opportunity sourcing could negatively impact our business, financial condition, and operational results. Additionally, our future strategies may differ from our current ones, and we cannot guarantee that our market analysis or future strategies will be successful in varying market conditions.

16. We may not be able to manage our growth strategy effectively or it may change in the future.

Our business strategy includes the construction of infrastructure projects and Commercial projects. In the future, we may decide to undertake projects in addition to these projects. We may not be able to capitalize on our strategy to develop commercial property if we fail to generate adequate sales therein.

As we grow and diversify, we may not be able to execute our projects efficiently on such an increased scale, which could result in delays, increased costs and diminished quality, each adversely affecting our reputation. This future growth may strain our managerial, operational, financial and other resources. If we are unable to manage our growth strategy effectively, our business, financial condition and results of operations may be adversely affected. In addition, depending on prevailing market conditions, regulatory changes and other commercial considerations, we may be required to change our business model and we may therefore decide not to continue to follow our business strategies described in this Draft Red Herring Prospectus.

17. Our Company’s activities are labour intensive and depend on availability of skilled and unskilled labourers in large numbers. In case of unavailability of such labourers and / or inability to retain such personnel or occurrence of any workstoppages, our business operations could be affected.

We operate in a labour-intensive industry, where our contractors rely on casual labour for our projects. In the event of a labour dispute, if our contractors are unable to negotiate successfully with workers or subcontractors, it could lead to work stoppages or increased operational costs. Additionally, finding the necessary skilled labour for current or upcoming projects may be challenging. We may also face liability, penalties, or losses resulting from accidents or damages caused by our workers or contractors.

Although we have not experienced any significant disruptions in our business operations due to labour disputes or workforce issues in the past, there is no guarantee that such disruptions won’t occur in the future. Such incidents could negatively impact our business, operational results, and may also divert management’s focus, leading to increased costs.

18. Our Company is dependent on third parties for the supply of materials required for our projects and is exposed to risks relating to fluctuations in commodity prices and shortage of such materials. Further, we do not have any long term supply agreements with the raw material providers.

We rely on various building such as bricks, stones, steel, and cement for our projects, and the cost of these materials depends on commodity prices, which can fluctuate. While we maintain strong relationships with our suppliers, we do not have formal agreements for material procurement. Instead, we choose suppliers based on price and availability at the time of need. Without contracts in place, our suppliers are not obligated to continue supplying materials to us at specific rates, and they may prioritize our competitors, leading to delays or increased costs.

If any of our suppliers decide to discontinue their relationship with us, we may face challenges in finding a suitable alternative that

meets our quality standards within a reasonable timeframe, or possibly at all. Any disruption in the availability of building materials could delay our projects and lead to cost overruns.

Additionally, there is no guarantee that high demand, capacity constraints, or other issues experienced by our suppliers won't result in occasional shortages or delays. Should we face a significant or prolonged shortage and be unable to source materials elsewhere, our project schedules may be delayed, negatively affecting our sales, profit margins, and customer relationships. Moreover, if the prices of building materials rise sharply, it may be difficult for us to secure alternative suppliers within a reasonable budget.

19. *Our operation could be adversely affected by changes to the FSI/TDR regime*

We, like other developers, in relation to our Construction of Commercial Projects, must adhere to municipal planning and land use regulations, which restrict the maximum square footage of buildings we can construct on plots. These regulations are based on a ratio known as the floor space index (FSI), which dictates the allowable floor space relative to the land area.

Transferable Development Rights (TDRs) are granted through a Development Rights Certificate by relevant authorities. They allow individuals who cannot fully utilize the FSI of their plot to transfer the unused FSI to other properties or third parties, in accordance with regulations. Some of our development sites may be designated for public use or amenities, such as roads, parks, and schools. If we develop these sites, we must comply with the reservation requirements and hand over the completed development to the appropriate authority. In return, we receive TDRs as compensation, which can be used to increase FSI on our projects, either within the same development or, under certain conditions, on other projects or transferred to third parties.

Occasionally, a development site may have potential but has already exhausted its FSI. In such cases, we can acquire additional FSI through TDRs to expand the project. For instance, acquiring TDRs from third parties allows us to exceed the approved building limits, increasing the saleable area of our projects. However, if we are unable to acquire TDRs or if they are more expensive than anticipated, it could affect our ability to complete certain projects due to insufficient FSI or higher project costs. Fluctuations in the price and availability of TDRs may adversely impact our ability to complete projects and our overall financial condition.

20. *We might not achieve the same level of profitability or return on investment as we did with our previous projects.*

The profits from our projects may not be reinvested into the business at a rate that matches or exceeds the returns we earned from those projects, and we might not use our capital as effectively as possible. For instance, we might place funds in fixed deposits or short-term investments with low post-tax returns. We could also invest in mutual funds, which carry market and credit risks and may not provide returns higher than our other investments or could even lead to losses. If we fail to achieve returns on our capital equal to or greater than those from our projects, it could reduce our overall return on net worth and capital employed, negatively impacting our business prospects, financial condition, and operational results.

21. *We encounter substantial risks before we start generating income from our Construction of commercial projects due to the lengthy time required to complete each project.*

Construction of commercial projects often require significant capital outlay during the land acquisition, development rights, and construction phases, and it may take a year or more before generating income or positive cash flows from project sales. Depending on the project's scale, the development timeline can span several years. Consequently, changes in the business environment during this period can impact the project's revenue and costs, affecting its profitability. Factors influencing profitability include potential delays in obtaining government approvals, failure to complete construction according to original specifications, schedule, or budget, and weak sales or leasing activity. The sales and value of a Construction of commercial project can be affected by various factors, such as the national, state, and local business climate and regulatory environment, local market conditions, perceptions of buyers and tenants regarding the project's appeal and convenience, and competition from other properties.

If any of these risks materialize, our returns on investment may be delayed or lower than anticipated, potentially negatively impacting our financial performance.

22. *We might periodically be involved in legal and administrative proceedings related to our operations.*

We might occasionally encounter disputes with various parties involved in the development and sale of our properties, including contractors, subcontractors, suppliers, and government authorities. Such disputes could lead to legal and administrative proceedings, potentially resulting in litigation costs and delays in our projects. For instance, we could face disagreements with regulatory bodies or third parties over legal interpretations, leading to administrative actions and unfavorable outcomes, which may cause financial losses and postpone the start or completion of our projects.

23. We encounter competition from both organized and unorganized players in our industry, which could negatively impact our business operations and financial condition.

The market for our industry is highly competitive due to the presence of both organized and unorganized players. Competitors often strive on factors such as timely delivery, pricing, design quality, construction standards, and project locations. Some rivals may have more industry experience and greater financial, technical, and other resources, allowing them to adapt quickly to market changes and maintain competitiveness. Additionally, the unorganized sector often offers products at very competitive prices, which we may struggle to match, potentially impacting our sales volume and growth prospects. Increased competition could lead to a reduction in our market share and profit margins, adversely affecting our business operations and financial condition.

24. We have entered into certain related party transactions in the past and may continue to do so in the future.

Our Company has entered into certain related party transactions in the past. For information regarding the related party transactions, see *Note 39 (6)* beginning on page no. 255 of the section titled “*Restated Consolidated Financial Information*” on page 185 of this Draft Red Herring Prospectus. While all such transactions are conducted on arm’s length basis and related party transactions entered into by the Company are in compliance with the Companies Act 2013 and other applicable laws. However, there can be no assurance that the Company could not have achieved more favourable terms if such transactions had not been entered into with related parties. In order to have sustained availability of quality services, ease of customer reach and in the best interest of the Company & its members/shareholders, the Company in future may propose to enter into material related party transactions with the related party/ies of the Company from time to time. All related party transactions that we may enter into post-listing, will be subject to an approval by our Audit Committee, Board, or Shareholders, as required under the Companies Act and/or the SEBI Listing. In future the directors & Key managerial personnel of the Company along with their respective relative may be interested financially or otherwise in such related party transaction or any other future transaction which may be entered with such related parties.

25. Our success relies on the expertise of our Promoters, Whole Time Directors, Senior Management, and skilled workforce. If we are unable to attract or retain key personnel, or if we lose the services of our Promoters, Managing Director, or Whole Time Directors, it could negatively impact our business prospects.

Our Promoter, Whole Time Directors, and senior management have played a crucial role in our business growth, and our future success depends on their continued service. The inability to retain key managerial personnel could negatively impact our operations. Our ability to execute contracts and secure new clients relies on attracting, training, motivating, and retaining highly skilled professionals, especially at the managerial level. As we grow and diversify, we may face challenges in recruiting qualified individuals. Competing with larger companies that offer more competitive compensation and benefits could make it difficult to secure skilled personnel.

Losing any senior management members, whole-time directors, or key personnel, or failing to manage attrition, could significantly harm our business, operations, financial condition, and growth prospects. Additionally, our success depends on hiring, retaining, and effectively utilizing qualified professionals with the necessary experience and expertise. At times, we may struggle to attract and retain such individuals, which could limit our ability to meet customer demand for our products.

For further details of our Promoters and Management, please refer chapter titled “*Our Promoters and Promoter Group*” and “*Our Management*” beginning on page 169 & 153 of this Draft Red Herring Prospectus.

26. Any changes in tax policies, duties, or other levies applicable to us could impact our operational results.

We benefit from certain general tax regulations and incentives that accord favourable treatment to certain of our operations as well as for our activities. These tax benefits include income tax deductions and other taxes. For details regarding income tax deductions, please refer to the chapter “*Statement of Possible Tax Benefits*” on page 102 of this Draft Red Herring Prospectus.

New or updated accounting policies, tax regulations, duties, or other levies introduced by relevant authorities may have a significant impact on our operational results. We cannot guarantee that we will continue to qualify for lower tax rates or other benefits. If our tax incentives are reduced or terminated, or if we fail to meet the conditions required to maintain them, our tax liability could increase, adversely affecting our business, prospects, operational results, and financial condition.

27. Our holding company Shradha Infraprojects Limited is also publicly listed, and fluctuations in its share price can impact us.

As our holding company is also listed on the stock exchange, any significant fluctuations in its share price can directly or indirectly affect our business. A decline in the holding company’s market valuation could lead to reduced investor confidence, affecting the financial stability of the overall group. It may also influence perceptions of our performance, even if our operations remain unaffected. Additionally, a drop in share price could limit the holding company’s ability to raise capital, which might impact our access to necessary financial resources for future growth and expansion. Such volatility in the stock market can

therefore have material consequences on our financial health and strategic plans.

28. *Misconduct or errors by personnel engaged by us may expose us to business risks or losses, potentially impacting our business prospects, operational results, and financial condition.*

Misconduct or errors by personnel engaged by us could expose us to business risks or losses, including regulatory sanctions, penalties, and significant damage to our business. Such misconduct may involve breaches of security, misappropriation of funds, concealment of unauthorized activities, failure to comply with our strict operational standards, or improper use of confidential information. It is not always possible to detect or prevent such actions, and our precautions may not always be effective. Risks associated with our workforce include potential claims related to:

- Actions or inactions, including situations where we may need to indemnify our customers;
- Inadequate verification of personnel backgrounds and qualifications, leading to substandard services;
- Failure of personnel to perform duties adequately or issues like absenteeism;
- Errors, malicious acts, or violations of security, privacy, health, and safety regulations.

Such claims could result in litigation and damages, which may be time-consuming and lead to negative publicity. Regulatory actions, claims of negligence, and subsequent legal proceedings could materially affect our business, financial condition, operational results, and prospects.

29. *If we experience a major uninsured loss or an insured loss that far exceeds our insurance coverage, it could negatively impact our financial condition and operational results.*

Our business could incur losses due to fire, natural disasters, theft, or other events, which may not be covered by insurance we currently have. Even when we secure insurance in the future, there is no guarantee that the terms will be sufficient to cover any damage or loss, that coverage will remain available on reasonable terms, or that it will be adequate for large claims. Additionally, there is a risk that the insurer may deny future claims. We will also need to renew our policies periodically, and failure to do so on time or at all could leave us exposed to significant uninsured losses. Should we experience a large uninsured loss, or if an insured loss exceeds our coverage, it could negatively affect our business, financial condition, and operational results.

30. *We have substantial ongoing funding needs and may face difficulties in raising additional capital in the future. This could limit our ability to seize business opportunities, address challenges, or handle unexpected situations.*

The company relies on bank financing to meet its working capital needs, and any default in these arrangements could disrupt our operations, potentially affecting our financial stability.

Furthermore, such issues may lead to challenges in securing funds for repayment and could negatively impact our financial standing. If we are unable to generate sufficient cash flow from operations or borrow the capital needed for future expenditures, our growth may be restricted. Additionally, we might struggle to service our existing customers or attract new ones. The inability to raise additional capital on favorable terms could adversely impact our business, operational results, and financial health.

For further details of our loans, please refer chapter titled “*Financial Information*” beginning on page 185 of this Draft Red Herring Prospectus.

31. *We are subject to the risk of failure of, or a material weakness in, our internal control systems.*

We face risks due to the inadequacy or failure of internal systems and processes, and any steps we take to mitigate these risks may not be sufficient to maintain an effective internal control environment. Given our high transaction volume, errors could be repeated or compounded before they are identified and corrected. Our management information systems and internal controls may not always detect non-compliance or suspicious transactions promptly, or at all. Even when weaknesses in internal controls are identified, our efforts to address them may not fully resolve the issues. Additionally, several of our collection-related processes are not yet fully automated, increasing the risk of human error, tampering, or manipulation, which may lead to losses that are difficult to detect. Consequently, we may incur costs or suffer financial losses that may not be covered by insurance, potentially having a significant impact on our business, financial condition, and operational results.

32. *We are subject to the risk of Tenant Vacating the Premises owned by us.*

Our Company leases portions of its property to third-party tenants. There exists a risk that one or more tenants may, prior to the expiration of their respective lease agreements, vacate the premises or elect not to renew their leases upon expiration. In such circumstances, our Company may be exposed to a reduction or cessation of rental income, which may materially and adversely affect the Company's financial condition, cash flows, and operational results.

In the event of such vacancy, our Company may face difficulties in securing replacement tenants on comparable terms or within

a reasonable time frame. Any delay in re-letting the premises, or re-letting on less favorable terms, could result in the Company incurring additional costs, including, but not limited to, maintenance, security, and marketing expenses, which may further negatively impact our Company's profitability. Prolonged vacancies may also adversely affect the market value of the property. While our Company undertakes commercially reasonable efforts to maintain tenant relationships and mitigate the risk of vacancy, there can be no assurance that the Company will be successful in preventing tenants from vacating or securing new tenants in a timely and economically favorable manner.

33. *Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.*

Our company is based in India, with both our assets and employees located there, making us highly reliant on the country's economic conditions. Consequently, our operational results are significantly impacted by factors affecting the Indian economy. Adverse influences may include:

- Rising interest rates or inflation in India
- Limited access to credit or financing, which could hinder economic conditions and restrict our expansion plans
- Income levels of Indian consumers and corporations
- Volatility or perceived trends in trading on major Indian stock exchanges
- Changes in India's tax, trade, fiscal, or monetary policies
- Political instability, terrorism, or military conflicts within India or its neighboring countries
- Natural or man-made disasters
- Global or regional economic conditions, including those in India's key export markets
- Other major regulatory or economic shifts affecting India or its construction sector

Any slowdown, or even the perception of a slowdown, in the Indian economy or its key sectors could negatively affect our business, operational results, financial health, and the value of our equity shares.

34. *We have not independently verified certain data in this Draft Red Herring Prospectus.*

We have not independently verified the industry data and related information presented in this Draft Red Herring Prospectus. While we believe the sources cited to be reliable, we cannot guarantee their completeness or accuracy. This data may also be compiled using different methods than similar information from other countries. As a result, discussions about India, its economy, or the industries we operate in, are based on statistical and other data that we have not verified and may be incomplete, inaccurate, or unreliable. Due to potential inaccuracies in data collection methods, discrepancies between published information and market practices, or other issues, the statistics provided may not be accurate or comparable to those produced elsewhere and should not be heavily relied upon. Additionally, we cannot assure you that this data is presented or compiled with the same precision as it might be elsewhere.

35. *We are vulnerable to risks associated with the unionization of our employees.*

We cannot guarantee that our employees will not unionize or attempt to do so in the future, nor can we assure you that they won't seek higher wages or improved benefits. Additionally, we cannot rule out the possibility of work disruptions due to disputes or other workforce issues. If such risks are not addressed promptly, they could hinder our ability to deliver products to clients, lead clients to reduce their use of our services, or increase our costs related to employee benefits and other expenses. Should these risks materialize, our business, operational results, and financial condition could be impacted.

36. *Any Penalty or demand raise by statutory authorities in future will affect our financial position of the Company.*

Our Company is mainly engaged in construction industry which attracts tax liability such as Income tax & Goods and Service Tax and other applicable provision of the Acts. However, the Company has been depositing the return under above applicable acts but any demand or penalty raise by concerned authority in future for any previous year and current year will affect the financial position of the Company. For detail, please refer "*Outstanding Litigation and Material Development*" beginning on page 285 of this Draft Red Herring Prospectus. Any such penalty arising in future may lead to financial loss to our Company.

37. *Our company's management will have discretion in the use of the Net Proceeds from the Issue. The allocation of these funds will not be monitored by any independent agency.*

Our Company intends to primarily use the net proceeds as described in the chapter titled "*Objects of the Issue*" on page 77 of this Draft Red Herring Prospectus. In terms of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Issue size is not in excess of ₹100 crores. The management of our company will have discretion over how the Net Proceeds from the Issue are used, and investors will be relying on their judgment in this matter. Our company may need to adjust

its management estimates over time, leading to changes in its requirements. Additionally, under Section 27 of the Companies Act 2013, any changes to the objectives of the Issue would require a special resolution from shareholders, and our Promoters or controlling Shareholders would need to provide an exit opportunity to any shareholders who disagree with such changes, in a manner that may be prescribed by SEBI in the future.

As a result, prospective investors must trust our management's judgment regarding the use of the Net Proceeds. If we are unable to utilize the proceeds as expected or within the anticipated timeframe, we may not achieve the expected benefits, which could negatively impact our business and financial results.

38. *Any changes in the use of the Net Proceeds as outlined in this Draft Red Herring Prospectus will be subject to specific compliance requirements, including obtaining prior approval from our company's shareholders.*

We propose to utilize the Net Proceeds as per the details mentioned in the chapter titled "*Objects of the Issue*" beginning on page 77 of this Draft Red Herring Prospectus. At this time, we cannot determine with certainty if the Net Proceeds will be needed for other expenditures or to address any unexpected issues arising from competitive, business, economic, or other external factors. According to Section 27 of the Companies Act, 2013, any changes to the utilization of the Net Proceeds as outlined in this Draft Red Herring Prospectus require approval from our shareholders through a special resolution. If circumstances arise that necessitate altering the planned use of the Net Proceeds, we might not be able to secure shareholder approval in a timely manner, or at all. Any delays or difficulties in obtaining this approval could negatively impact our business or operations.

Additionally, our Promoters or controlling shareholders will need to provide an exit opportunity to shareholders who disagree with any changes to the proposed utilization of the Net Proceeds, as prescribed by SEBI. This requirement might discourage Promoters or controlling shareholders from agreeing to variations in the proposed use of the Net Proceeds, even if such changes are beneficial to the company. We cannot guarantee that the Promoters or controlling shareholders will always have sufficient resources to offer this exit opportunity.

Given these factors, we may be unable to modify the utilization of the Net Proceeds, even if such modifications would benefit the company. This could limit our ability to adapt to changes in our business or financial situation by reallocating any unutilized proceeds, potentially adversely affecting our business and operational results.

39. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the Issue Price.*

Our Promoters average cost of acquisition of Equity Shares in our Company could be lower than the Issue Price decided by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapters "*Capital Structure*" beginning on pages 64 of this Draft Red Herring Prospectus.

40. *Our capacity to pay dividends in the future will be influenced by our earnings, financial health, cash flows, working capital needs, and capital expenditures.*

Our ability to provide returns to shareholders is influenced by various factors affecting our business and financial situation. The amount of any future dividend payments will depend on several factors, including our earnings, financial condition, cash flows, working capital needs, contractual obligations, relevant Indian legal restrictions, capital expenditures, and debt costs.

Additionally, our capacity to pay dividends could be affected by restrictive covenants in any loan or financing agreements we enter into. Even in profitable years, we might choose to reinvest our earnings into business development and expansion rather than declaring dividends. Consequently, there is no guarantee that we will be able to pay dividends in the future. For further details, see section "*Dividend Policy*" on page 184 of this Draft Red Herring Prospectus.

41. *After the completion of the Issue, our Promoters and Promoter Group will continue to have control over the company, enabling them to influence decisions on matters that require shareholder approval.*

As on the date of this Draft Red Herring Prospectus, our Promoters and Promoter Group hold 99.99% of the issued and outstanding paid-up share capital of our Company. Following the completion of the Issue, our Promoters and Promoter Group will continue to hold together [●] % of our post-Issue Equity Share capital. As a result, they will have the ability to influence matters requiring shareholders' approval, including the ability to appoint Directors to our Board and the right to approve significant actions at Board and at shareholders' meetings, including the issue of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to our Memorandum of Association and Articles of Association, and any other business decisions. We cannot assure you that our Promoters and Promoter Group will not have conflicts of interest with other shareholders or with our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business.

For further details regarding our shareholding, please refer to chapter titled “*Capital Structure*” beginning on page 64 of this Draft Red Herring Prospectus.

42. *Our Equity Shares have not been previously traded publicly and may experience price and volume fluctuations after the completion of the Issue. There might not be an active trading market for the Equity Shares, which could lead to price volatility. As a result, you might not be able to resell your Equity Shares at or above the Issue Price, or possibly not at all.*

Before the Issue, our Equity Shares have not been publicly traded, and there is no guarantee that an active trading market will develop or be maintained afterward. Even if our shares are listed and quoted, it does not ensure the development of a market or the liquidity of such a market. The Issue Price of our Equity Shares is based on various financial factors and may not reflect their market price when trading begins or at any future point. Recent Indian stock markets have experienced significant volatility, and the trading price of our shares could vary widely due to market fluctuations or other internal and external risks, including those detailed in this Draft Red Herring Prospectus. A decline in the market price of our Equity Shares could result in a loss of some or all of your investment.

43. *The use of the Proceeds is not monitored by any independent agency. The intended uses of the Proceeds from the Issue are based on management estimates and have not been reviewed or appraised by any banks or financial institutions.*

We intend to use the Proceeds of the Issue for the purposes described “*Objects of the Issue*” on page no. 77 of this Draft Red Herring Prospectus. Our management may adjust estimated costs, funding needs, and deployment schedules due to factors related to our business operations or external conditions beyond our control. The use of the Proceeds from the Issue and other financing will be overseen solely by the Audit Committee of the Board, without independent agency oversight. While awaiting the deployment of the Proceeds, we plan to deposit the Net Proceeds in scheduled commercial banks listed in the Second Schedule of the Reserve Bank of India Act, 1934.

Our funding needs and the allocation of the Proceeds are based on management estimates and have not been reviewed by any banks or financial institutions. Given the highly competitive nature of our industry, we may need to periodically revise our estimates, which could lead to changes in our funding requirements.

44. *Shareholder rights under Indian laws may be more restricted compared to those in other jurisdictions.*

Indian legal principles regarding corporate procedures, directors’ fiduciary duties, and liabilities may differ from those in other jurisdictions. As a result, investors might find it more challenging to assert their rights as shareholders in an Indian company compared to a company in another jurisdiction. Shareholder rights under Indian law may not be as comprehensive as those in other countries. According to the Companies Act, a public limited company in India must offer its existing equity shareholders pre-emptive rights to subscribe to a proportionate number of new equity shares before issuing them, unless these rights are waived by a special resolution approved by a three-fourths majority of the equity shareholders.

For foreign investors, if the laws in their jurisdiction do not allow the exercise of pre-emptive rights without our filing an offering document or registration statement with the relevant authority, they will be unable to exercise these rights unless we make such a filing. If we choose not to file, new securities may be issued to a custodian, who might sell the securities for your benefit. The value received from such sales and the associated transaction costs are uncertain. Consequently, if you cannot exercise pre-emptive rights related to our Equity Shares, your proportional interest in our company could decrease.

45. *The Issue Price of our Equity Shares may not reflect their market price after the Issue, and the market price could fall below the Issue Price. Consequently, you might not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our equity shares will be determined based on various factors and may not reflect their market price after the Issue. For more details, please see the section titled “*Basis for Issue Price*” starting on page 93 of the Draft Red Herring Prospectus. The market price of our Equity Shares could experience significant fluctuations post-Issue and may fall below the Issue Price. We cannot guarantee that you will be able to sell your Equity Shares at or above the Issue Price. Factors that could influence our share price include:

- Quarterly changes in our financial metrics, such as earnings per share, net income, and revenues
- Alterations in revenue or earnings forecasts or the release of analyst reports
- Media or investment community speculation
- Economic, legal, and regulatory conditions both domestically and internationally that are unrelated to our performance

46. *Anti-takeover provisions under Indian law might prevent a third party from gaining control of our Company.*

Indian law includes provisions that could delay, deter, or prevent a future takeover or change in control of our company, even if such a change would offer a premium for your Equity Shares or otherwise benefit you. These regulations may dissuade or obstruct certain transactions related to a change in control. Under Indian takeover regulations, an acquirer is defined as any individual or entity that, directly or indirectly, acquires or seeks to acquire shares, voting rights, or control over a company, either alone or in concert with others. While these provisions aim to protect the interests of investors and shareholders, they may also discourage a third party from pursuing control of our Company. As a result, even if a potential takeover could lead to purchasing Equity Shares at a premium or provide other benefits, such a takeover might not be pursued or completed due to these regulations.

47. We might need to issue additional equity in the future, which could dilute existing equity and potentially impact the market price of our Equity Shares. Alternatively, we may seek to raise additional funds through debt, but we might face challenges in securing such financing. Any future equity offerings could also be affected by these factors.

Our growth relies on maintaining a strong balance sheet. Besides the IPO Proceeds and internally generated cash flow, we may need additional financing to meet our capital requirements, which could involve securing new debt from lending institutions or raising more equity in the capital markets. We might need to raise further capital depending on business conditions, such as significant growth, regulatory changes, or substantial operating losses depleting our existing capital base. Issuing new shares or convertible securities could dilute existing shareholders and may not be on terms favorable to them. If we opt for additional debt financing, our interest obligations will rise, and we may face stricter covenants, limiting our cash flow. Such financing could increase our debt-to-equity ratio or require collateral on our assets. We cannot guarantee that we will secure adequate financing on acceptable terms or on time, and failure to do so could delay or halt our expansion plans, affecting our business and future results.

Future issuance of Equity Shares might dilute existing shareholders' stakes and impact the trading price of our shares, potentially affecting our ability to raise capital. The perception of possible future issuances or sales by major shareholders could also influence the trading price. Additionally, if major shareholders dispose of, pledge, or encumber their shares, or if such actions are anticipated, it could affect our share price. We cannot guarantee that we will not issue more Equity Shares or that our major shareholders will not engage in such transactions.

48. Our Company logo “ **active ” is not registered with Registrar of Trademark; any infringement of our brand name or failure to get it registered may adversely affect our business. Further, any kind of negative publicity or misuse of our brand name could hamper our brand building efforts and our future growth strategy could be adversely affected.**

Our Company logo “ **active** ” is not registered with Registrar of Trademark. EXTERNAL RISK FACTORS

50. Natural or man-made disasters could negatively impact our operational results, cash flows, and financial health. Additionally, hostilities, terrorist attacks, civil unrest, and other acts of violence could affect financial markets and disrupt our business.

Natural disasters such as cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, and pandemics, as well as man-made disasters including acts of terrorism and military actions, could negatively impact our operations, cash flows, and financial condition. Terrorist attacks and other forms of violence or conflict, whether within India or globally, could affect the Indian securities markets. Furthermore, any worsening of international relations, particularly between India and its neighboring countries, may lead to investor concerns about regional stability, which could negatively influence the price of our Equity Shares. Recent local civil disturbances in India, along with potential future unrest or other adverse social, economic, or political events, could harm our business and increase perceptions of risk associated with investing in Indian companies, potentially affecting our business and the market price of our Equity Shares.

51. Our business and operations may be subject to additional regulation under the Competition Act. Any unfavorable application or interpretation of this Act could significantly and negatively impact our business, financial condition, and operational results.

The Competition Act aims to prevent business practices that could significantly harm competition in India and established the Competition Commission of India (CCI). According to the Act, any agreement or action, whether formal or informal, that negatively impacts competition is deemed void and subject to severe penalties. This includes agreements among competitors that set purchase or sale prices, engage in bid rigging or collusive bidding, control production, distribution, or supply of goods and services, or allocate markets or customers. Additionally, the Act prohibits the abuse of a dominant market position. If a company violates the Act due to the actions or negligence of its directors or officers, those individuals can also be held personally liable.

The Act also regulates mergers, acquisitions, and other combinations, requiring approval from the CCI if they exceed certain asset and turnover thresholds. New provisions regarding combinations, effective June 1, 2011, mandate that such transactions be notified to and pre-approved by the CCI. The CCI further defined the process through the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011, and its amendments. If we, or our employees, face penalties under the Competition Act, it could adversely affect our business.

52. Our business is significantly influenced by the current economic, political, and other prevailing conditions in India.

Our Company is incorporated in India, with most of our assets and employees based there. Consequently, we are highly reliant on the economic conditions in India, and our operational results are greatly influenced by factors affecting the Indian economy. These factors include:

- The overall macroeconomic environment, such as increases in Indian interest rates or inflation;
- Fluctuations in exchange rates, currency control measures, and restrictions on currency conversion or repatriation;
- Limited availability of credit or other financing, impacting economic conditions and our expansion efforts;
- Income conditions among Indian consumers and businesses;
- Volatility and trends in trading activity on India's major stock exchanges;

- Changes in India's tax, trade, fiscal, or monetary policies;
- Political instability, terrorism, or military conflicts within India, the region, or globally;
- Natural or man-made disasters;
- Regional or global economic conditions, including in India's key export markets;
- Significant regulatory or economic developments affecting India or its ER&D sector, as well as international business practices that might conflict with other customs or legal requirements, such as anti-bribery and anti-corruption laws.

53. *A major shift in the Indian government's policies on economic liberalization and deregulation could negatively impact our business and the value of our Equity Shares.*

The Indian government has historically played, and continues to play, a major role in the economy. Adverse government policies, including those related to the internet, e-commerce, consumer protection, and data privacy, could negatively impact business conditions in India and hinder our ability to execute our strategy and achieve future financial success. Since 1991, various governments, including coalition ones, have promoted economic liberalization by easing restrictions on the private sector and fostering the growth of the financial sector. However, changes in government personnel or coalition composition can lead to unpredictable economic policies. For instance, there could be new regulations related to the internet and e-commerce, including issues of liability, user privacy, content restrictions, and service quality. Changes in economic liberalization and deregulation policies, as well as shifts in laws affecting financial services, foreign investment, and currency exchange, could negatively impact the overall business environment in India and specifically affect our business.

Details for increase in working capital requirement of the Company for FY 2023

One of the important factors affecting the working capital requirements of the business is its scale and at what stage is it positioned in its economic life cycle. The Company's fund requirement went up as the Trade Receivables increased by Rs. 585.66 Lakhs in fiscal year ended 31 March, 2023 from NIL in in fiscal year ended 31 March, 2022. This was due to increase in revenue from operations of Company which went up by 8,020.99% to Rs. 8,939.83 Lakhs in fiscal year ended 31 March, 2023 as compared to Rs. 110.08 Lakhs in in fiscal year ended 31 March, 2022 primarily due to sale of the Office Block/Commercial Space (from NIL in fiscal 2022 to Rs 8,050.00 lakhs in fiscal 2023).

Also, there was an increase in Other Current Assets by Rs. 144.64 Lakhs which is an increase of 2,284.99% to Rs. 150.97 Lakhs in fiscal year ended 31 March, 2023 as compared to Rs. 6.33 Lakhs in in fiscal year ended 31 March, 2022. From this amount of Other Current Asset in FY 2022-23, Rs. 142.06 Lakhs pertains to GST input balance with government authorities.

Apart from this, the Company repaid Short-Term Borrowings of Rs. 4,420.89 Lakhs in the fiscal year ended 31 March, 2023. The short-term borrowings were repaid as Company had clear funds available as other than Rs. 585.66 Lakhs of revenue which was yet to be realized and seen as debtors in financials the balance revenue was realized. Also, the Company earned other income amounting to Rs. 18.89 Lakhs which further increased fund balance available with the Company. The reason of this balance is primarily due to increase in Other Income (from Rs 0.30 lakhs in fiscal 2022 to Rs 17.55 lakhs in fiscal 2023).

Therefore, increase in Trade Receivables amount and Other Current Asset amount along with repayment of Short-Term Borrowings led to an increase in fund requirement for doing business by the Company thereby leading to increased Working Capital requirement.

Details for decrease in working capital requirement of the Company for FY 2024

During the fiscal year ended 31 March, 2024 the Company's overall fund requirement reduced. There was a decrease in the inventory held by the Company by Rs. 3,346.82 Lakhs which is a reduction of 40.78% to Rs. 4,860.50 Lakhs in fiscal year ended 31 March, 2024 as compared to Rs. 8207.32 in fiscal year ended 31 March, 2023. This reduction was due to sale of inventory in FY 2023-24 wherein the Company sold inventory i.e. Office Block/Commercial Space amounting to Rs. 4,837.74 Lakhs leading to decrease in inventory.

Similarly, there was an increase in the amount of Other Financial Liabilities by Rs. 406.29 Lakhs which is an increase of 2339.03% from Rs. 423.66 Lakhs in fiscal year ended 31 March, 2024 as compared to Rs. 17.37 in fiscal year ended 31 March, 2023. This was majorly due to increase in the amount of expenses payable (Rs. 410.18 in FY 2023-24 from Rs. 8.41 Lakhs in FY 2022-23). This has increased due increase in provision made for expenses

During the said year the Trade Receivables went up by Rs. 1552.35 Lakhs to Rs. 2138.01 Lakhs in FY 2023-24 from Rs. 585.66 Lakhs in FY 2022-23. This was due to pending realization of the funds, partially, during the FY 2023-24 on sale of Inventory amounting to Rs. 4,837.74 Lakhs during the said year.

Short-Term borrowing went down by Rs. 748.94 Lakhs to Rs. 5,677.57 Lakhs in FY 2023- 24 from Rs. 6,426.51 Lakhs in FY 2022-23. This was because of Company having clear funds available as out of Rs. 9,718.33 of revenue from operations during the year, only Rs. 2138.01 was tied up in Trade Receivables. Also, the Company earned other income amounting to Rs. 24.72 Lakhs which further increased fund balance available with the Company. The major reason of this balance is primarily due to increase in Interest received from Unsecured Loan (from Rs 1.33 lakhs in the fiscal 2023 to 16.27 lakhs in fiscal 2024) and increase in Interest on FD (from NIL in the fiscal 2023 to Rs 8.45 lakhs in fiscal 2024). The net effect of all of these items resulted in overall reduction in fund requirement of the Company and as a result the working capital requirement of the Company went down in FY 2023-24.

Details for increase in working capital requirement of the Company for stub period and estimated period

During the stub period and estimated period, the Company's overall fund requirement has increased. The factors leading to this increased requirement are as follows:

For the stub Period –the Loans have increased by 818.99 lakhs which is an increase of 1470% to Rs 874.69 Lakhs in the stub period from 55.70 lakhs in the fiscal year ended 31 March 2024,Short term Borrowings have reduced by 856.68 lakhs which is decrease of 15.08% to Rs 4820.89 Lakhs in the stub period from Rs 5677.57 Lakhs for the fiscal year ended 31 March 2024,Trade payables have reduced by 358.62 lakhs which is reduction of 53.53% to Rs 311.28 in the stub period from Rs 669.90 Lakhs for the fiscal year ended 31 march 2024 which represents a reduction of 358.62 lakhs the Trade receivables have decreased by Rs. 949.89 Lakhs which is a decrease of 44.43% to Rs. 1188.12 Lakhs in stub period from Rs. 2138.01 Lakhs in the fiscal year ended 31 March, 2024 and during the same period Inventory has decreased by Rs 861.3 Lakhs to Rs. 3,999.20 Lakhs for the Stub Period from Rs. 4,860.50 in fiscal year ended 31 March, 2024. The inventory has reduced due to completion of construction activity leading to reduction of 17.72% during the stub period. Therefore, the combined effect of all these items has led to net increase in working capital requirement in the Stub Period.

For estimated period – There is an Increase in Inventory by Rs. 2,270.29 Lakhs in estimated period as compared to fiscal year ended 31 March, 2024. There is an increase in Trade Receivables by Rs. 2,552.20 Lakhs in estimated period as compared to fiscal year ended 31 March, 2024 as Company is expecting that certain invoices relating to the road construction will get cleared post the financial year end of estimated period.

Also, there is an Increase in Loans and Advances (for purchase of material) by Rs. 263.83 Lakhs in estimated period as compared to fiscal year ended 31 March, 2024. All the three factors have led to an increase in fund requirement by the Company as increased Inventory, Trade Receivables and Loans and Advances has led to more funds (as compared to FY 2023-24) being tied up thereby increasing the Working Capital requirement in Estimated Period.

Details for increase in working capital ratio for last three financial years, stub period.

Particulars	FY 22	FY 23	FY 24	30-Sep-24
Net Working Capital	935.78	1467.05	305.53	752.75
Revenue from Operations	110.08	8939.83	9718.33	3367.12
Working capital ratio*	8.50	0.16	0.03	0.22

*Working capital ratio is calculated by dividing Net Working capital upon Revenue from Operations.

Based on the above working there is no increase in working capital ratio if seen year on year in the last 3 full Financial Year. There is a

continuous decline in the Woking Capital Ratio from FY 2021-22 to FY 2023-24..

It can also be observed from the working, that from FY 2021-22 to FY 2023-24 there is a decline in Working Capital Ratio. Reason for same is as follows:

FY 2021-22 – The revenue in FY 2021-22 was lower as the Construction of Commercial Project segment was under construction and hence very little revenue was realized. At the same time due to ongoing construction activity, the requirement of working capital was high leading increased Working Capital Ratio.

FY 2022-23 – As observed from the table above, there is a decline in the working capital ratio in FY 2022-23 as the revenue from sale of Construction of Commercial Project was realized leading to increased revenue and thereby reducing the working capital ratio.

FY 2023-24 – As observed from the table above, there is an increase in revenue realized. Also in the FY 2023-24 there is a decline in working capital requirement as there was a decrease in the inventory held by the Company by Rs. 3,346.82 Lakhs which is a reduction of 40.78% to Rs. 4,860.50 Lakhs in fiscal year ended 31 March, 2024 as compared to Rs. 8207.32 in fiscal year ended 31 March, 2023. This reduction was due to sale of inventory in FY 2023-24. Similarly, there was an increase in the amount of Other Financial Liabilities by Rs. 406.29 Lakhs which is an increase of 2339.03% from Rs. 423.66 Lakhs in fiscal year ended 31 March, 2024 as compared to Rs. 17.37 in fiscal year ended 31 March, 2023. This was majorly due to increase in the amount towards provision for expenses. During the said year the Trade Receivables went up by Rs. 1552.35 Lakhs and the short-Term borrowing went down by Rs. 748.94 Lakhs. The net effect of all of these items resulted in overall reduction in fund requirement of the Company and as a result the working capital requirement of the Company went down in FY 2023-24. Due to these reasons the working capital ratio has also gone down.

Basis of Estimation, assumptions and justification of working capital requirements

Our Company proposes to utilize Rs. **3,898.04** lakhs of the Net Proceeds for our working capital requirements. The amount will be utilized during Fiscal year 2024-2025 towards our Company's working capital requirements. The incremental and proposed working capital requirements, as approved by the Board and key assumptions with respect to the determination of the same are mentioned below.

The estimates of the working capital requirements have been prepared based on the management estimates of future financial performance. The projection has been prepared using a set of assumptions that include assumptions about future events and management's actions that are not necessarily expected to occur.

The working Capital Assumptions of the Company are based on the estimated working capital requirement of the Company majorly towards the Water Supply System Projects (Company focus on providing potable water through treatment process and distributing it to urban & rural areas. Active source water from pond, lakes, and reservoirs, which is conveyed through pipelines to the water treatment plant. At the plant, treatment processes like aeration, settling, filtration, and chlorination, takes place. Thereafter, the treated water is supplied through pipelines to ground water sump/overhead tanks for further distribution to households.) which has been approved by the members. The company being an infrastructure Company and majority revenue being tied to government approvals, the inventory and trade receivable holding days are always high. This has been factored in while estimating the working capital requirements.

On the basis of existing and estimated working capital requirement of our Company on consolidated basis, and assumptions for such working capital requirements. The proposed funding of such working capital requirements as set forth below:

Justification for Holding Period Levels.

Particulars	Details
Inventory	<p>In Fiscal 2022-2023 & 2023-2024 our average Inventory holding period was 13.96 months, 7.76 months respectively. We are estimating the Inventory holding period at level of 6.31 months in the fiscal 2024-2025. This can be attributed to liquidation of inventory under our “Construction of Commercial Project” segment and our increased operations under “Infrastructure” segment having a relatively lower holding period.</p> <p>High inventory holding days is due to peculiar the nature of the business. The business does not have a fast inventory conversion cycle as inventory predominantly are roads work, water supply systems work and commercial space (previous FY) all of which take a significant amount of time and government approvals before they can be invoiced and accounted as revenue. This leads to a higher gestation period leading to high inventory holding days.</p>
Trade Receivables	<p>In Fiscal 2022-2023, 2023-2024 our average Debtor holding period was 0.79 months and 2.64 months respectively. We are estimating trade receivable holding period of 3.65 months for the fiscal 2024- 2025 as per our projected financials and market conditions.</p>
Trade Payables	<p>In Fiscal 2022-2023, and 2023-2024 our trade payables were 1.49 months and 1.07 months respectively, we are estimating trade payables holding period 0.65 months for the fiscal 2024-2025 as per our projected financials as the trade payable months are expected to decrease under the Water Supply System service under our ‘Infrastructure’ Segment due to the nature of the business.</p>

2. *Repayment/ Prepayment of Certain Borrowings availed by our Company and Margin Money for obtaining Bank Guarantee*

Our Company has entered into various borrowing arrangements with banks and financial institutions. Also, as per the business needs of the Company, margin money is required for the purpose of obtaining bank guarantees by the Company.

Our Company intends to utilize Rs. 1672.34 lakhs of the Net Proceeds towards repayment or prepayment of all or a portion of the principal amount and the accrued interest thereon in case of certain loans availed and towards margin money for obtaining bank guarantees. Pursuant to the terms of the borrowing arrangements, prepayment of certain indebtedness may attract prepayment charges as prescribed by the respective lender. Such prepayment charges, as applicable, will also be funded out of the Net Proceeds. Given the nature of the borrowings and the terms of repayment or prepayment, the aggregate outstanding amounts under the borrowings may vary from time to time and our Company may, in accordance with the relevant repayment schedule, repay or refinance some of their existing borrowings prior to Allotment. Also, our Company may avail additional loan facilities or draw down on in its working capital facilities from time to time to meet its business requirements. Accordingly, our Company may utilize the Net Proceeds for repayment/prepayment of any such refinanced facilities (including any prepayment fees or penalties thereon) or any additional facilities obtained by our Company.

As per our agreement with Jain Engineering Works (India) Pvt. Ltd. (“JEW”) - who has sub-contracted the Water Supply System projects to us (kindly refer chapter “Our Business ” on page no. 113) - the Company has to replace the existing bank guarantee offered by JEW. In lieu, of the same the Company is in requirement of margin money to be offered to avail such Bank Guarantee (“BG”). The Company is of the view that it will be able to avail such BG on the same terms and conditions on which JEW has obtained the BG (kindly refer table below). However, the terms and conditions of such availment may vary from time to time and our Company will move forward with the best possible recourse.

However, the aggregate amount to be utilized from the Net Proceeds towards prepayment or repayment of borrowings (including refinanced or additional facilities availed, if any) and the margin money for obtaining the bank guarantee, in part or full, will not exceed Rs. 1672.34 lakhs. We believe these actions will help reduce our outstanding indebtedness and debt servicing costs and enable utilization of the internal accruals for further investment towards business growth and expansion. Also, availment of BG will ensure that Company is able to fulfill the terms as per the sub contact agreement. In addition, we believe that this would improve our ability to raise further resources in the future to fund potential business development opportunities.

GLOBAL ECONOMIC OVERVIEW

The global economy is stabilizing, following several years of negative shocks. Global growth is projected to hold steady at 2.6 percent 2024-25, despite flaring geopolitical tensions and high interest rates, before edging up to 2.7 percent in 2025-26 alongside modest expansions of trade and investment. Global inflation is expected to moderate at a slower clip than previously assumed, averaging 3.5 percent this year.

Global growth over the forecast horizon is expected to be nearly half a percentage point below its 2010-19 average, with a slower pace of expansion in economies comprising over 80 percent of the global population. EMDE growth is projected to moderate from 4.2 percent in 2023 to 4 percent in 2024.

Despite elevated financing costs and heightened geopolitical tensions, global activity firmed in early 2024. Global growth is envisaged to reach a slightly faster pace this year than previously expected, due mainly to the continued solid expansion of the U.S. economy. However, the extent of expected declines in global interest rates has moderated amid lingering inflation pressures in key economies. By historical standards, the global outlook remains subdued: both advanced economies and emerging market and developing economies (EMDEs) are set to grow at a slower pace over 2024-26 than in the decade preceding the pandemic

Domestic demand is projected to improve in many EMDEs this year, in line with a moderate cyclical recovery from the effects of high inflation, tight financial conditions, and anaemic industrial activity. Aggregate EMDE growth is nonetheless poised to decelerate slightly mainly because of idiosyncratic factors in some large economies. Moreover, significant challenges persist in vulnerable economies including in low-income countries (LICs) and those facing elevated levels of conflict and violence where growth prospects have deteriorated markedly since January.

Global trade growth is recovering, supported by a pickup in goods trade. Services-trade growth is expected to provide less of a tailwind this year, given that tourism has nearly recovered to pre-pandemic levels. However, the trade outlook remains lacklustre compared to recent decades, partly reflecting a proliferation of trade-restrictive measures and elevated trade policy uncertainty.

INDIAN ECONOMY OVERVIEW

Strong economic growth in the first quarter of FY 23 helped India overcome the UK to become the fifth largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP or GDP at Current Prices in the year 2023-24 is estimated at Rs. 295.36 lakh crores (US\$ 3.54 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 269.50 lakh crores (US\$ 3.23 trillion). The growth in nominal GDP during 2023-24 is estimated at 9.6% as compared to 14.2% in 2022-23.

Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the second half of FY24. During the period April-June 2025, India's exports stood at US\$ 109.11 billion, with Engineering Goods (25.35%), Petroleum Products (18.33%) and electronic goods (7.73%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Market Size

Real GDP or GDP at Constant (2011-12) Prices in the year 2023-24 is estimated at Rs. 173.82 lakh crores (US\$ 2.08 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 160.71 lakh crores (US\$ 1.92 trillion). The growth in real GDP during 2023-24 is estimated at 8.2% as compared to 7.0% in 2022-23.

There are 113 unicorn startups in India, with a combined valuation of over US\$ 350 billion. As many as 14 tech startups are expected to list in 2024 Fintech sector poised to generate the largest number of future unicorns in India. With India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- As of July 5, 2024, India's foreign exchange reserves stood at US\$ 657.15 billion.
- In May 2024, India saw a total of US\$ 6.9 billion in PE-VC investments.
- India was also named as the 48th most innovative country among the top 50 countries, securing 40th position out of 132 economies in the Global Innovation Index 2023. India rose from 81st position in 2015 to 40th position in 2023. India ranks 3rd position in the global number of scientific publications.
- In June 2024, the gross Goods and Services Tax (GST) stood at highest monthly revenue collection at Rs. 1.74 lakh crore (US\$ 20.83 billion) vs Rs. 1.73 lakh crore (US\$ 20.71 billion)
- Between April 2000–March 2024, cumulative FDI equity inflows to India stood at US\$ 97 billion.
- In May 2024, the overall IIP (Index of Industrial Production) stood at 154.2. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 136.5, 149.7 and 229.3, respectively, in May 2024.
- Foreign Institutional Investors (FII) inflows between April-July (2023-24) were close to Rs. 80,500 crore (US\$ 9.67 billion), while Domestic Institutional Investors (DII) sold Rs. 4,500 crore (US\$ 540.56 million) in the same period. As per depository

data, Foreign Portfolio Investors (FPIs) invested (US\$ 13.89 billion) in India during January- (up to 15th July) 2024.

Road Ahead

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in 2023-24, stood 37.4% higher than the same period last year. In the budget of 2023-24, capital expenditure took lead by steeply increasing the capital expenditure outlay by 37.4 % in Budget Estimate (BE) 2023-24 to Rs.10 lakh crore (US\$ 120.12 billion) over Rs. 7.28 lakh crore (US\$ 87.45 billion) in Revised Estimate (RE)2022-23.

The ratio of revenue expenditure to capital outlay increased by 1.2% in the current year, signalling a clear change in favour of higher-quality spending. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels. In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).

INDIAN CONSTRUCTION INDUSTRY

The Indian construction market is experiencing robust growth, driven by significant investments and government initiatives aimed at enhancing sectors such as commercial, industrial, infrastructure, energy and utilities, institutional, and residential construction. This surge is fuelled by the need to support increasing urbanization and population growth, with each sector catering to specific project types from hotels and industrial parks to educational buildings and extensive transportation projects. The commercial construction sector in India benefits from a boom in tourism and business activities, while the industrial construction sector thrives on strong manufacturing activities. Infrastructure development in the construction industry in India is propelled by both public and private investments in transportation, whereas the energy and utilities construction sector is set for growth with a focus on renewable energy and achieving energy independence.

Market Overview and Size

The construction market size in India is experiencing significant growth, driven by increasing demand for residential and commercial spaces. The shift in consumer preferences post-Covid towards larger and open living spaces has spurred development, particularly in tier 1 cities. Government initiatives and private sector investments are expanding construction activities, with a focus on both urban and rural development. The commercial real estate sector is also poised for growth as businesses adapt to new working arrangements.

The size of India Construction market is around USD 639 billion in the current year and is anticipated to register a Compound Annual Growth Rate (“CAGR”) of over 6% during the forecast period. It is the fourth-largest construction market in the world, after the US, China and Japan. It is the fastest-growing construction industry, globally. With an impressive 7-8% growth rate annually, India is expected to become the third-largest construction market in the world, valued at USD 1.4 trillion by 2025. The construction industry accounts for 9% of India's GDP.

Growth of Construction Industry in India

- **Increasing Demand for Office Space:** The demand for office spaces in India has increased due to growing corporate activity. The total flexible office space in major cities reached 43.5 million square feet, with a pan- India flexi space penetration of 6.3% in Grade A office stock.
- **Government Initiatives and Foreign Investments:** The government's focus on infrastructure development has triggered the demand for commercial real estate assets through projects like the National Infrastructure Pipeline and the Smart Cities Mission. The stable political environment has also instilled investor confidence, leading to massive investments by foreign and domestic investors in commercial real estate.
- **Adoption of Modern Technologies:** In recent years, the commercial construction sector has advanced significantly by incorporating modern machinery, sustainable materials, and innovative technologies like BIM and geospatial technologies, improving efficiency, quality, and sustainability in construction projects.
- **Sustainable Construction Practices:** With increasing emphasis on environmental preservation, India's construction sector is

increasingly adopting sustainable construction methodologies. The rise in popularity of certifications like LEED and IGBC is fuelling the development of energy-efficient structures and eco-conscious construction techniques. Renewable resources and eco-friendly methodologies are poised to define the trajectory of India's construction landscape. The sector will place a premium on attaining green building certifications and enhancing energy efficiency. Embracing environment friendly practices is set to emerge as a prominent trend in India.

- **Public-Private Partnerships:** Public-private partnerships (PPPs) are becoming instrumental in bridging the funding gap for infrastructure projects. By leveraging the expertise and resources of both sectors, PPPs facilitate the timely execution of projects and promote sustainable construction development.

Government Initiatives

1. Government initiatives for skill development in the Indian construction industry have become a cornerstone in addressing the sector's growing demand for a skilled workforce. Prominent programs like the Pradhan Mantri Kaushal Vikas Yojana (PMKVY) and the National Skill Development Mission (NSDM) are pivotal in this effort. Since its inception, PMKVY has successfully trained over 1.2 million individuals across various trades, providing them with vocational skills and industry-recognized certifications. The NSDM, established to boost skill development across sectors, complements this by fostering a robust ecosystem for training and upskilling.
2. Schemes such as the revolutionary Smart City Mission (target 100 cities) are expected to improve quality of life through modernized/ technology driven urban planning.
3. Significant investments in renewable energy, including the Solar Rooftop Mission under the Pradhan Mantri- Surya Ghar Muft Bijli Yojana, aim to promote the adoption of solar energy across residential and commercial sectors.
4. A Technology Sub-Mission (TSM) has been set up under the Pradhan Mantri Awas Yojana - Urban (PMAY-U) Mission to facilitate adoption of modern, innovative and green technologies and building material for faster and quality construction of houses. TSM also facilitates preparation and adoption of layout designs and building plans suitable for various geo-climatic zones and assists States/ Cities in deploying disaster resistant and environment friendly technologies.

Road Ahead

India's construction industry, the second-largest employer in the country, is expected to maintain its upward trajectory for several years. The Indian construction market is highly competitive, owing to the presence of major local and international players. However, the market holds opportunities for small and medium players due to increasing government investments in the sector. The Indian construction market presents opportunities for growth during the forecast period, which is expected to further drive market competition. Large players are competing with each other for a large share of the Indian construction market. This makes it hard to see any consolidation in the market. Developers who are tech-savvy, future-focused and commit to sustainability will be leading the charge into a future full of promise for this sector.

INFRASTRUCTURE SECTOR IN INDIA

India's high growth imperative in 2023 and beyond will significantly be driven by major strides in key sectors with infrastructure development being a critical force aiding the progress.

Infrastructure is a key enabler in helping India become a US \$26 trillion economy. Investments in building and upgrading physical infrastructure, especially in synergy with the ease of doing business initiatives, remain pivotal to increase efficiency and costs. Prime Minister Mr. Narendra Modi also recently reiterated that infrastructure is a crucial pillar to ensure good governance across sectors.

The government's focus on building infrastructure of the future has been evident given the slew of initiatives launched recently. The US\$ 1.3 trillion national master plan for infrastructure, Gati Shakti, has been a forerunner to bring about systemic and effective

reforms in the sector, and has already shown a significant headway.

The infrastructure sector is a key driver of the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from the Government for initiating policies that would ensure the time-bound creation of world-class infrastructure in the country. The infrastructure sector includes power, bridges, dams, roads, and urban infrastructure development. In other words, the infrastructure sector acts as a catalyst for India's economic growth as it drives the growth of the allied sectors like townships, housing, built-up infrastructure, and construction development projects.

To meet India's aim of reaching a US\$ 5 trillion economy by 2025, infrastructure development is the need of the hour. The government has launched the National Infrastructure Pipeline (NIP) combined with other initiatives such as 'Make in India' and the production-linked incentives (PLI) scheme to augment the growth of the infrastructure sector. Historically, more than 80% of the country's infrastructure spending has gone toward funding for transportation, electricity, and water, and irrigation.

Market Size

In Budget 2024-25, capital investment outlay for infrastructure has been increased by 11.1% to Rs. 11.11 lakh crore (US\$ 133.86 billion), which would be 3.4 % of GDP. As per the Interim Budget 2023-24, a capital outlay of Rs.

2.55 lakh crore (US\$ 30.72 billion) has been made for the Railways, an increase of 5.8% over the previous year.

Starting with 6,835 projects, the NIP project count now stands at 9,142 covering 34 sub-sectors, as per news reports. Under the initiative, 2476 projects are under the development phase with an estimated investment of US\$ 1.9 trillion. Nearly half of the under-development projects are in the transportation sector, and 3,906 are in the roads and bridges sub-sector.

During FY 2023-24, Total revenue of Indian Railways stands at US\$ 28.89 billion (Rs 2.40 Lakh Crore) as on 15th March. Last year on 15th March, total Revenue was US\$ 26.84 billion (Rs 2.23 Lakh Crore)

India currently has the fifth-largest metro network in the world and will soon overtake advanced economies such as Japan and South Korea to become the third-largest network. Metro rail network reached 810 kms and is operational in 20 cities.

In the last 10 years, 697 km have been added to Metro Rail Network across the country. In 2024, about 945 km of metro rail lines are operational in 21 cities and 919 km is under construction in 26 different cities. FDI in construction development (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activity sectors stood at US\$ 26.61 billion and US\$ 33.91 billion, respectively, between April 2000-March 2024.

Government Initiatives and Investments

Some of the recent government initiatives and investments in the infrastructure sector are as follows: Under Budget 2024-25:

1. The Central government has increased its capital expenditure (capex) allocation to US\$ 133.9 billion (Rs. 11.11 trillion) for the fiscal year beginning April 1, 2024, with a focus on advancing India's infrastructure, as part of a strategic move to stimulate economic growth. An increase of 11.1% from the previous year, the FY25 budget allots US\$ 133.9 billion (Rs. 11.11 trillion) for capital expenditures, or 3.4% of GDP.
2. With a 37% increase in the current fiscal year, capital expenditures (capex) are on the rise, which bolsters ongoing infrastructure development and fits with Vision 2022.
3. 7 goals for India's economic growth to become a US\$ 5 trillion economy. In order to anticipate private sector investment and to address employment and consumption in rural India, the budget places a strong emphasis on the development of roads, shipping, and railways.
4. India's ambitious plan calls for spending US\$ 1.723 trillion (approximately Rs. 143 trillion) on infrastructure between FY24 and FY30, with a particular emphasis on power, roads, and developing industries like renewable energy and electric vehicles.
5. The government has decided to allocate Rs. 2.76 lakh crore (US\$ 33.4 billion) towards the Ministry of Roads for 2024-25.

Road Ahead

With a 37% increase in the current fiscal year, capital expenditures (capex) are on the rise, which bolsters ongoing infrastructure development and fits with 2027 goals for India's economic growth to become a US\$ 5 trillion economy. In order to anticipate private sector investment and to address employment and consumption in rural India, the budget places a strong emphasis on the development of roads, shipping, and railways.

Global investment and partnerships in infrastructure, such as the India-Japan forum for development in the Northeast are also indicative of more investments. These initiatives come at a momentous juncture as the country aims for self-reliance in future-ready and sustainable critical infrastructure.

India, it is estimated, needs to invest US\$ 840 billion over the next 15 years into urban infrastructure to meet the needs of its fast-growing population. This investment will only be rational as well as sustainable, if we additionally focus on long-term maintenance and strength of our buildings, bridges, ports, and airports.

The infrastructure sector has become the biggest focus area for the Government of India. India's GDP is expected to grow by 8% over the next three fiscal years, one of the quickest rates among major, developing economies, according to S&P Global Ratings. India and Japan have joined hands for infrastructure development in India's Northeast states and are also setting up an India-Japan Coordination Forum for development of Northeast to undertake strategic infrastructure projects for the region.

BUSINESS PROCUREMENT PROCESS

Our Company primarily operates under two segments:

- 1. Infrastructure and**
- 2. Construction of Commercial Projects.**

Infrastructure projects are awarded through tendering process. These projects are usually construction of roads (including bridges), flyovers, water supply systems, irrigation projects, and other related infrastructure activities. Government bodies and private companies publish tenders inviting bids from the prospective bidders for undertaking construction of the tendered project as per the terms mentioned in the tender document. We identify such opportunities and submit our bid. Usually, the lowest bidder is awarded the tender and a letter of award is issued to such bidder. Subsequently, a contract agreement (CA) is executed between the parties and the construction work begins with mobilization of resources at site. After completing the construction and obtaining the relevant approvals, the project is handed over to the relevant authority. To better understand the steps which we follow in the infrastructure segment, please refer to the following flowchart:

- Identify Tender Opportunity:** We continuously monitor tender opportunities through official government and private sector websites, newspapers, and other platforms. The goal is to identify projects that align with our expertise and capacity. Being proactive in identifying tenders early provides a competitive advantage and ample time to prepare.
- Register with Online Tender Portal:** To streamline the tendering process, we register on online tender portals that provide regular notifications of upcoming tenders. This ensures that we stay informed about new opportunities, amendments to existing tenders, and deadlines, allowing us to focus on relevant bids without missing key updates.
- Download and Study Tender Documents:** Once a relevant tender is identified, we download the tender documents, which typically include the scope of work, eligibility criteria, timelines, technical specifications, and other contractual obligations. A thorough review helps determine if the project is feasible for us and whether we meet the qualifications required to bid.
- Attend Pre-bid Meeting:** Pre-bid meetings provide a platform for us to clarify doubts regarding the project scope, tender terms, or technical requirements directly with the client. This stage is crucial for understanding the client's expectations and any potential amendments to the tender documents. Notes from the meeting are critical for aligning the bid submission with the latest requirements.

- e. **Prepare Necessary Documents:** We then compile all required documentation such as proof of technical and financial capability etc. These documents demonstrate our ability to execute the project successfully and are essential for qualifying for the bid and submission of bid security amount.
- f. **Tender Opening by Client:** After the submission deadline, the client formally opens the tenders, usually in a public or transparent manner. This ensures fairness in the bidding process, allowing all participants to witness the opening. The bids are then recorded and distributed to the relevant evaluation committees for review.
- g. **Submit Tender:** Depending on the tender requirements, we submit the bid either online or in hard copies. If using an online portal, it is important to ensure that all documents are uploaded correctly before the deadline. For hard copy submissions, delivery should be made to the specified location in accordance with the tender instructions, with all documents neatly packaged and verified.
- h. **Organize Documents:** All documents, including technical and financial bids, must be organized and formatted as per the submission guidelines outlined in the tender. This ensures that the submission is clear, professional, and easy to evaluate, reducing the chances of disqualification due to non-compliance with documentation requirements.
- i. **Prepare Financial Bid:** The financial bid outlines the proposed costs for executing the project, including all direct and indirect expenses such as material, labour, equipment, and overheads. A detailed cost breakdown ensures transparency and competitiveness, ensuring that all project expenses are covered while remaining competitive in the marketplace.
- j. **Prepare Technical Bid:** The technical bid explains how we plan to execute the project, detailing the methodology, construction schedule, and the specific equipment and manpower to be used. It also highlights our technical expertise, demonstrating their capability to meet the client's requirements.
- k. **Evaluation by Client:** The client's evaluation committee assesses both the technical and financial proposals. The technical evaluation focuses on our ability to execute the project based on their approach, resources, and past performance. The financial bid is reviewed to ensure cost-effectiveness.
- l. **Award of Tender:** After evaluating all bids, the client selects the most suitable bidder, balancing technical expertise and competitive pricing. In case of us winning the bid, we get notified via a Letter of Award (LOA) or Letter of Intent (LOI). Following the award, contract negotiations may take place to finalise terms, conditions, and payment schedules.
- m. **Submission of Bank Guarantees (BGs):** Upon receiving the tender award, we are typically required to submit bank guarantees (BGs) in lieu of security deposits or performance securities. These guarantees protect the client by ensuring that we will meet their obligations throughout the project.
- n. **Signing of Contract Agreement:** The contract is formally signed between the client and the company. The agreement outlines all contractual obligations, including timelines, scope of work, payment terms, and dispute resolution mechanisms. This legal document is binding and serves as the foundation for the project's execution.
- o. **Obtaining Necessary Permissions:** Before the construction work can begin, we must secure various permits and approvals as outlined in the contract. These could include environmental clearances, building permits, and safety certifications. Timely acquisition of these permissions is crucial to avoid delays.
- p. **Maintenance Period:** After completing the construction work, the project enters a maintenance period during which we are responsible for addressing any defects or issues that arise. This period is typically defined in the contract and ensures that the client receives a fully functional, high-quality building.
- q. **Obtaining Completion Certificates:** Once the project is finished to the client's satisfaction, we must apply for completion certificates from the relevant authorities. These certificates confirm that the work complies with all regulatory standards and that the project has been completed in accordance with the contract.
- r. **Billing:** In this stage, we prepare and submit invoices for completed work as per the agreed payment schedule. The billing must be detailed and accurate, reflecting the actual work done, and is submitted for the client's approval before payment is released.
- s. **Work Execution:** The construction work is carried out according to the Bill of Quantities (BOQ) or as directed by the Authority. This includes executing tasks as per the technical specifications, adhering to timelines, and ensuring quality standards. Inspections by the client or third-party consultants are conducted regularly to ensure compliance.
- t. **Mobilization of Manpower & Resources:** We then deploy the necessary workforce, materials, and equipment to the project site. Effective mobilization ensures that the project starts on time and progresses smoothly, with all resources available as per the project's demands.

- u. **Project Handover:** Once all construction activities are complete, the project is handed over to the client. This includes providing all necessary documentation, certificates, and warranties, as well as ensuring that the site is cleared and any remaining issues are resolved to the client's satisfaction.

BUSINESS PROCUREMENT PROCESS/ HOW COMPANY ACQUIRES TENDERS UNDER THE INFRASTRUCTURE SEGMENT

We identify potential projects from a variety of sources such as website of govt. Authorities like NHAI, CPWD, MoRTH, MSRDC, WRD etc. Then our Management & consultants do the survey & Feasibility of the project. After confirming the Feasibility of the project, our senior engineers along with our management apply for bids.

Understanding the requirements for a tender and coordinating with internal departments to gather the necessary information. Ensuring that tenders are submitted within the required deadlines and following up on the status of submissions.

After determining the availability of projects, we decide on which projects to pursue based on the following, other factors:

- Project size – Estimated Cost and Quantum of Works.
- Duration – Time Limit of Completion of Project.
- Availability – Resources such as Manpower, Material and Machinery.
- Competitive advantages and disadvantages.
- Prior experience – Requirement for Pre-qualification to quote the Tender.
- Reputation of the client – Regarding consistency for Bill Payment, Supervision etc.
- Source of project funding – Funds from State Govt. or Central Govt. etc.
- Type of contract – Item Rate, EPC, Lumpsum, BOT, etc.
- Tender Bidding (in case of tender based contract)

Bidding Process by the Company jointly/separately:

The Company bids for the tenders both jointly and separately. Depending on the financial and technical qualifications of the tender the Company decides whether to bid jointly or separately. Wherever the Company fulfills the financial and technical qualifications of the tender, the Company bids separately else it bids jointly.

➤ Tender Bidding (in case of tender based contract)

After deciding which contracts to pursue, we may have to complete a pre-qualification / short listing process with our client. The pre-qualification / short listing process generally limits bidders to those companies with operational experience and financial capability to effectively complete the particular project(s) in accordance with the plans, specifications and construction schedule. Our bid estimation process typically involves two phases:

Phase I: Initially, we visit the site for detailed survey, materials availability, rates etc. We perform the estimating the cost and availability of labour, material, equipment, sub-contractors and the project team required to complete the project on time and in accordance with the plans and specifications.

Phase II: The final phase consists of a detailed review of the estimate by the management including, among other things, assumptions regarding cost, approach, means and methods, productivity and risk. After the final review of the cost estimate, the management adds a markup over costs to arrive at the total bid amount.

➤ Tender Negotiation

Requests for proposals or negotiated contracts with our clients are generally awarded based on a combination of technical capability and price, taking into consideration factors such as project schedule and prior experience.

➤ Signing of Letter of intent (LOI)

On successful negotiation of the contract, we sign the letter of intent / contract with our client.

BUSINESS PROCUREMENT PROCESS & SALES & MARKETING OF CONSTRUCTION OF COMMERCIAL PROJECT SEGMENT

- **Land Identification:** Identifying a strategically located piece of land for development, or working with land provided by the client. Locating a piece of land for upcoming project or choosing a correct piece of land for shifting an existing government project is indeed a difficult task. This task is difficult as the wrong decision in this regard may lead to increased financial stress and in worst case lead to project failure.

In our opinion and to the best of our information and according to the explanations given to us, the Statement:

- a) includes the results of the entities mentioned in **Appendix 3**;
- b) is presented in accordance with the requirements of Regulation 33 of the Listing Regulations as amended; and
- c) gives a true and fair view in conformity with the applicable accounting standards, and other accounting principles generally accepted in India, of consolidated total comprehensive income (comprising of net profit and other comprehensive loss) and other financial information of the Group for the Half year ended 30th September 2024.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Results* section of our report.

We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial results.

Management's Responsibilities for the Consolidated Financial Results

These Half yearly consolidated financial results have been prepared on the basis of the consolidated interim financial statements.

The Holding Company's Management and the Board of Directors are responsible for the preparation and presentation of these consolidated financial results that give a true and fair view of the consolidated net profit/ loss and other comprehensive income and other financial information of the Group in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, 'Interim Financial Reporting' prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The respective Management and Board of Directors of the companies/entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of each company/entity and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial results that give a true and fair

view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial results by the Management and the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial results, the respective Management and the Board of Directors of the companies/entities included in the Group are responsible for assessing the ability of each company/entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors/Trustees either intends to liquidate the company/entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies of the entities included in the Group is responsible for overseeing the financial reporting process of each company/entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the consolidated financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
4. Conclude on the appropriateness of the Management's and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial results of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current quarter. These matters were addressed in the context of the audit report issued by the auditor of the Holding company on audit of the Standalone financial statements of the Holding company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibilities for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flow statement of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of

the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion.

Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities or business activities included in the Consolidated Financial Statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements for the financial year ended 31st March, 2024 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

“ANNEXURE A”

To The Independent Auditor’s Report of even date on the Consolidated Financial Statements of Active Infrastructure Limited.

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

In conjunction with our audit of the Consolidated Financial Statements of Active Infrastructure Limited (hereinafter referred to as the “Parent”) as at and for the year ended 31st March, 2024, 31st March 2023 and 31st March 2022 we have audited the internal financial controls with reference to Consolidated Financial Statements of the Parent and its subsidiary companies, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to Consolidated Financial Statements based on the internal control with reference to Consolidated Financial Statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Parent and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to Consolidated Financial Statements of the Parent and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and on the basis of the audit reports issued by the auditor of the Holding company and its subsidiary companies, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2024, 31st March 2023 and 31st March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Financial Statements insofar as it relates to 4 subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

It was incorporated on 26th September, 2007. The group is primarily engaged in the business of Construction & Sale of Residential/Commercial units and execution of infrastructure projects.

NOTE 2: Statement on Significant Material Accounting Policies

The significant Material accounting policies applied by the Holding company, its subsidiaries and its associates in the preparation of its Consolidated financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these Consolidated financial statements, unless otherwise indicated.

1. Statement of Compliance:

These Consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time.

2. Basis of Preparation of Financial Statements:

These Consolidated financial statements have been prepared in Indian Rupee (Rs. In lakhs) which is the functional currency of the group.

The Consolidated financial statements have been prepared under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values by Ind AS and inventories at Cost or NRV whichever is lower. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in orderly transaction between market participants at the measurement date.

3. Principles of Consolidation:

The Consolidated financial Statements relate to Active Infrastructures Private Limited ('The Holding Company'), its subsidiaries and associate (where its ownership is less than 50% but more than 20%). The Consolidated Financial Statements have been prepared on the following basis:

- i) The financial statements of the group, its subsidiaries companies and associate have been combined on a line by line basis by adding together book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions in accordance with the Indian Accounting Standard (Ind AS) 110 - “Consolidated Financial Statements.”
- ii) The consolidated financial statements have been prepared using uniform accounting policies for the like transactions and other events in similar circumstances and are presented in the same manner as the group's separate financial statements except revenue recognition. Revenue recognition policy of the Holding company and its subsidiaries Achievers Ventures Private Limited and Digvijay Shradha Infrastructure Private Limited is different and that is set out under this Note 2.5. No adjustments has been done in accounting in order to use uniform revenue accounting policy as it is not practicable in preparing the consolidated financial statements.
- iii) The difference between the cost of investment in the subsidiaries, over the net assets at the time of acquisition of shares in the Subsidiaries is recognized in the financial statements as Goodwill or Capital Reserve, as the case may be.

- iv) The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as of the date of disposal is recognized in the consolidated Profit and Loss Statement being the profit or loss on disposal of investment in subsidiary.
- v) The share of non-controlling interest in net profit of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the group.
- vi) Share of non-controlling interest in net assets of consolidated subsidiaries is identified and presented in the consolidated balance sheet separate from liabilities and the equity of the group's shareholders.
- vii) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in same manner as the group's separate financial statements.

The Subsidiaries and LLPs considered in the preparation of these consolidated financial statement are:

4. Use of Estimates:

In preparation of the Consolidated financial statements, the group makes judgments, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Significant judgments and estimates relating to the carrying values of assets and liabilities include useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

5. Revenue Recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognized.

i. Recognition of revenue from real estate projects

Revenue is recognized upon transfer of control of commercial units to customers, in an amount that reflects the consideration the group expects to receive in exchange for those commercial units. The group shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of commercial units, the group satisfies the performance obligation and recognizes revenue at a point in time i.e., upon handover of the commercial units.

ii. Dividend income:

Revenue is recognised when the shareholders' or unit holders' right to receive payment is established, which is generally when shareholder approve the dividend.

iii. Share in profits of partnership firm investments

The group's share in profits from a firm where the group is a partner, is recognised on the basis of such firm's audited accounts, as per terms of the partnership deed.

iv. Interest income

Interest income, including income arising from other financial instruments, is recognised using the effective interest rate method.

6. Property, Plant and Equipment:

Property, plant and equipment are stated at their cost of acquisition/construction, net of accumulated depreciation and impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use and initial estimate of decommissioning, restoring and similar liabilities. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the

future benefits from the existing asset beyond its previously assessed standard of performance. Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the property, plant and equipment is derecognized.

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is not related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

7. Depreciation on Property Plant & Equipment:

Depreciation on property, plant and equipment provided as per cost model on Written down value basis over the estimated useful lives of the asset as follows:

A. Plant and machinery - Civil construction	
(i). Concreting, Crushing, Piling Equipments	: 12 Years

F. Furniture	: 10 Years
G. Office Equipments	: 5 Years

Based on technical evaluation, the management believes that the useful lives given above best represents the period over which the management expects to use the asset. Hence the useful lives of the assets are same as prescribed under Part C of schedule II of Companies Act, 2013.

The estimated useful life of the assets is reviewed at the end of each financial year. The residual value of Property, plant and equipment considered as 5% of the original cost of the asset. Depreciation on the assets added / disposed of during the year is provided on pro-rata basis with reference to the month of addition / disposal.

8. Impairment (other than Financial Instruments)

At each balance sheet date, the Group reviews the carrying values of its property, plant and equipment and intangible assets to determine whether there is any indication that the carrying value of those assets may not be recoverable through continuing use. If any such indication exists, the recoverable amount of the asset is reviewed in order to determine the extent of impairment loss (if any).

Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount

of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. An impairment loss is recognized in the statement of profit and loss as and when the carrying value of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying value of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount so that the increased carrying value does not exceed the carrying value that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. The remaining reversal of an impairment loss is recognized in the statement of profit and loss immediately.

9. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets and Financial Liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. The transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are immediately recognized in the statement of profit and loss.

Effective interest method

The effective interest method is a method of calculating the amortized cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

(a) Financial Assets:

Cash and Bank Balances:

- (i) Cash and cash equivalents - which includes cash in hand, deposits held at call with banks and other short-term deposits which have maturities of less than one year from the date of such deposits.
- (ii) Other bank balances - which includes balances and deposits with banks that are restricted for withdrawal and usage.

Financial assets at amortized cost:

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at Fair Value:

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group in respect of equity investments (other than in subsidiaries, associates and joint ventures) which are not held for trading

has made an irrevocable election to presentation other comprehensive income subsequent changes in the fair value of such equity instruments. Such an election is made by the Group on an instrument-by- instrument basis at the time of initial recognition of such equity investments.

Financial asset not measured at amortized cost or at fair value through other comprehensive income is carried at fair value through the statement of profit and loss.

Impairment of financial assets

Loss allowance for expected credit losses is recognized for financial assets measured at amortized cost and fair value through other comprehensive income. The Group recognizes life time expected credit losses for all trade receivables that do not constitute a financing transaction.

For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognized. Loss allowance equal to the lifetime expected credit losses is recognized if the credit risk on the financial instruments has significantly increased since initial recognition.

De-recognition of financial assets

The Group de-recognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

(b) Financial Liabilities and Equity Instruments:

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial Liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortized cost, using the effective interest rate method where the time value of money is significant.

Interest bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortized cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized over the term of the borrowings in the statement of profit and loss.

De-recognition of financial liabilities

The group de-recognizes financial liabilities when, and only when, the group's obligations are discharged, cancelled or they expire.

Reclassification of financial assets

The group determines classification of financial assets and liabilities on initial recognition. After initial recognition of financial assets and financial liabilities, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The group's senior management determines change in the business model as a result of external or internal changes which are significant to the group's operations.

Such changes are evident to external parties. A change in the business model occurs when the group either begins or ceases to perform an activity that is significant to its operations. If the group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The group does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in P&L.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

10. Inventory

Inventories are stated at the lower of cost and net realizable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realizable value is the price at which the inventories can be realized in the normal course of business after allowing for the cost of conversion from their existing state to a finished condition and for the cost of marketing, selling and distribution.

11. Cash and cash equivalents:

Cash and cash equivalents comprise cash at bank and in hand and short-term investments with a balance maturity of three months or less.

12. Income Taxes:

A. Current Tax

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

B. Deferred Tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. In contrast, deferred tax assets are only recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Current and deferred tax are recognized as an expense or income in the statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognized in other comprehensive income or directly in equity.

13. Provisions:

A provision is recognized when the group has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group. A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made, is also termed as contingent liability. A contingent asset is neither recognized nor disclosed in the financial statements.

14. Employee Benefits

Short term employee benefits are recognized on an accrual basis.

15. Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per shares is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per shares and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

Note 34: Financial risk management

The Company's activities expose it to the following risks:

Credit risk

Interest risk

Liquidity risk

A Credit risk

Credit Risk is the risk that counter party will not meet its obligations under a financial instruments or customer contract leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and unbilled revenue) and from its financing activities including deposits with banks and financial institutions, investments, foreign exchange transactions and other financial instruments.

i Trade receivables

Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored.

The impairment analysis is performed at each reporting date on an individual basis for clients. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security.

Credit risk exposure

The Company's credit period generally ranges from 30 – 60 days are as below.

Particulars	As at 30th September 2024	As at 31st March 2024	As at 31st March 2023	As at 31st March 2022
Trade receivables	1,188.12	2,138.01	585.66	-

Work in progress	3,999.20	4,860.50	8,207.32	12,362.49
Total	5,187.32	6,998.51	8,792.97	12,362.49

The Company evaluates the concentration of risk with respect to trade receivables as low as they are spread across multiple geographies and multiple industries.

ii Financial instruments and deposits with banks

Credit risk is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Counterparty credit limits are reviewed by the Company periodically and the limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

B Interest risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company having non current borrowing in the form of Term Loan. Also, the Company is having current borrowings in the form of working capital facility and Inter Corporate Loans. There is a fixed rate of interest in case of Inter corporate loans and Suppliers Credit hence and term loans there is no interest rate risk associated with these borrowings. The Company is exposed to interest rate risk associated with working capital facility due to floating rate of interest.

The table below illustrates the impact of a 0.5% increase in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year.

The exposure of company's borrowing to interest rate changes at the end of reporting period are as follows:

C Liquidity risk

Liquidity is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the cash and cash equivalents is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

Note 35: Financial instruments

The fair value of the financial assets are included at amounts at which the instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value:

- (a) Fair value of cash and short-term deposits, trade and other short-term receivables, trade payables, other current liabilities, approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (b) Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, if required, allowances are taken to account for the expected losses of these receivables.

Note 37: Fair value hierarchy

Level 1: - Quoted price (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

wide range of possible fair value measurements and the cost represents estimate of fair value within that range

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs. 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount(Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation

with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.
